Lumina Domestica (Lamp Museum)

The museum contains the world's largest collection of lamps and lights. More than 6.000 antiques tell the complete story of interior lighting, from the torch and paraffin lamp to the light bulb and LED. The small detour into the world of luminous animals and plants is particularly interesting. In this way you can discover, for example, the light mysteries of the glow-worm, the lantern fish and the small Chinese lantern.
